The Magic of Thinking Big (with 5 lifelong lessons)

- Think about success.

1. It starts with thinking big. You are going to get out of life exactly what you think you are going to get.

2. Thinking makes it so. Practice every day thinking about what you really want. DiSC personalities influence the way you think. Find out what kind of personality you are.

Remember Einstein once said, "imagination is more important than knowledge". There are two types of imagination. Creative imagination usually deals with those people that end up be entrepreneurs.

Subjective imagination deals with those people who take something that exists and makes it better.

3. Ignore the haters. Remember when you get angry with someone, they just go on with their life and you are the one left with all the hate. There are three kinds of people.

- The ones that are out to get you.
- The middle floaters. They just go floating along in life.
- "S" personalities who are the servants of life. Those are the ones who are the doers.

Smile and turn off the haters. In your mind just turn them off.

4. Take one step at a time. The journey of a thousand miles starts with one step. Avoid discouragement. Make sure you do not get discouraged. Be more not less. Complete one goal or success at a time.

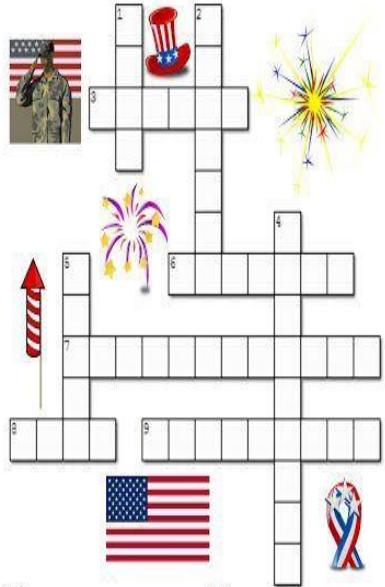

5. Lifelong ideas. Do more not less but always think. Measure money and all opportunity losses and adjust to achieve your financial success.
